EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Glenn Perry (Reg. No. 28,458) on 03/24/2006.

3. The application has been amended as follows:

In Claim 9:

"claim 3" (line 1) has been changed to: --claim 35--;

"said glass base material" (line 3-4) has been changed to: --said bagged and wrapped
glass base material--.

In Claim 10:

"claim 3" (line 1) has been changed to: --claim 35--;

"said glass base material" (line 3-4) has been changed to: --said bagged and wrapped
glass base material--.

Claims 11-16 have been cancelled.

In Claim 35:

The phrase --having a cylindrical shape over its whole length-- has been inserted between
"material" and "into" on line 4;

", plastic bag and" has been changed to: --in said plastic bag and wrapped in said--.

Reasons for the Examiner's Amendment

4. Claim 35 has been amended to recite the shape of the glass base material in order to distinguish the claimed glass base material from other glass objects that are not base material for optical fiber.
5. Claims 7, 9 and 10, which were restricted as being non-elected species, have now been considered, rejoined and allowed with the generic claim 35; claims 9 and 10 have been amended to depend on the new generic claim 35.
6. Claims 11-16, which were restricted as being non-elected species, have been cancelled because they would raise new matter if rejoined; for example, claim 11 would render the cylindrical container having at least one glass base material in plastic bag and at least one glass base material in plastic bag and wrapped in air packing material, such combination is not disclosed in the present application.

Reasons for Allowance

7. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose and/or teach a method of packing a glass base material, which is a base material of an optical fiber, that comprises the steps of: putting the glass base material having a cylindrical shape over its whole length into a plastic bag, then wrapping the plastic bag containing the glass base material with air packing material, and then packing the glass base material in the plastic bag and wrapped in the air packing material into a cylindrical container; thus the claimed method is defined over the prior art of record.
